Popular Sovereignty.

The Government of England, as is well known, is nominally a Constitutional monarchy, and has been such for two hundred years. At its head is the Queen, as the case may be, whether a man or a woman, a boy or a girl, matters not which. Everybody who knows anything of the history of England, in modern times, especially since the commencement of the 17th century, knows full well, that the Monarch, whether male or female, counts but little more than the cipher placed before the unit indicated in the person of the Prime Minister. In the case of the figures it enjoys a local precedence though counting nothing. So in the affairs of Government the precedence is assigned to the Monarch, but it amounts to little more than the cipher at the left hand of the figure 1. The History of England for the last twenty years affords us a most striking illustration of the foregoing remarks. When Victoria commenced her reign she was simply a young, good natured and inexperienced girl of some 17 or 18 years of age, and was probably better versed in the style and fashion of bonnets and dress, than the agents of civil government; yet notwithstanding, her youth, ignorance and inexperience, the clearest observer could not detect in the management of governmental affairs, any evidence of incapacity, or any lack of the great ability which usually marks their course; thus affording us the most satisfactory evidence of the insignificance of the nominal head of the Government, when compared or contrasted with the actual, and substantial head manifested in the individual, who for the time being rules the State - a Premier, or first Lord of the Treasury. This is the personage which in England for all State purposes, answers to the idea formed in this country, of the position of President. The latter distinguished official, is by our Constitution chosen by the people once in four years, and though their humblest of servants, while the canvass continues, no sooner is a successful result ascertained, than the humble servant is, as if by magic, transformed into a despotic master, and tramples his creator in the dust, unless they fall down and worship the image they have set up. This he not only can, but does do in defiance of his party, of his oath and of the public weal; and all this must be quietly submitted to and borne for the full term of his odious course. This is our boasted Sovereignty of the people. How is it in England - *sovereignty not under right efteth*? A little brief authority, begins to play the tyrant & cut such fantastic tricks, as to make the angel's weep than down upon his devotional heat come the thunders of the *King-in-Church*, the representatives of the popular Sovereignty; and the divine thunder is hurled back by popular indignation, and even the *King* is derived from a *King*, - *King* indeed!

INQUIRY VS. BRITAIN. — What do we care? One poor monomaniac has convulsed this State to its centre, and has made the Supreme Court to hang as it were upon a precipice over some yawning chasm. Now we are cooled off, and see "the self" how cheap we feel! I am ashamed of it, — all of us ought to be.

French's Hotel, New York. — We would call the attention of our readers to a notice in our advertising columns in relation to this large and commodious establishment. We speak from personal experience, when we say that the public may safely rely upon what is said of it in the advertisement, as being founded on truth and sustained by facts. We have occasionally stopp'd there, when we have visited the city, and can honestly say, that the accommodations have in all respects been of the most satisfactory character. It has from its first opening in 1819, been under the personal supervision and direction of its present gentlemanly proprietor, Col. R. French, of whom it is superfluous for us to speak favorably to those who know him and to those who do not, a single visit will be quite sufficient to satisfy them that the Colonel with all his subordinate assistants, are, from their peculiar fitness for their respective stations, well worthy of a liberal and extensive patronage.

THIRTY-FIFTH CONGRESS.
First Session.
SENATE.

WASHINGTON, Friday, March 11. Mr. Chandler, of Michigan, spoke on the Kansas question.

HOUSE.

The House passed the consular and diplomatic bill.

Mr. Clingman, (N. C.) from the committee of foreign affairs, reported a bill authorizing an appropriation of \$750,000 for the repair of the Norwegian bark *Eidoo*, which rescued the passengers of the Central America. The bill was passed.

The House also passed the Senate bill authorizing certain officers and men engaged in the several United States expeditions in search of Sir John Franklin to receive medals from British Government.

LOCAL NEWS.

Mr. James H. Hammett has purchased the building formerly occupied by Mr. H. Stanton as a grocery and Mrs. Greene as a millinery store, situated on the east side of Thames street, and has commenced to remodel it for his own use. The situation is very favorable, and the building is conveniently situated.

Mr. J. S. Tamm has sold his valuable years' interest in a house worth \$20,000, and the same now has been transferred to him, and is now in the possession of a respectable citizen of Portsmouth. We hope that all loves of good order and justice will take such measures as they conveniently can for the apprehension and conviction of the marauders.

We learn that a Union Prayer Meeting will be held daily through this week at the First Baptist Church, commencing precisely at 8 o'clock, and continuing until 11 before 9 o'clock, beginning this morning. All who are disposed to attend, are cordially invited.

The prospect for business in Newport for the coming season is said to be uncommonly good by those who know the signs of the times.

Col. Van Zandt has been quite sick, so that he was confined to his room at the Hotel in Providence for the last few days.

Ward has received the following new music from Russell & Richardson, Boston: "Saw ye not my bonnie lass," by J. W. Turner, is a pretty song.

"I long to see thy smile Mother," is a simple and pathetic ballad, by the same composer.

"May of the Valley," is a song and chorus by Geo. F. Root.

"Hark, the vesper hymn is stealing," is a beautiful hymn, the words are familiar to all: the music by Thomas Ryan.

"Come over the hills to the sea love,"

"Good night to thee dearest,"

"Friend my heart holds dear,"

"What the spirits did in a horn,"

are all songs by J. W. Smith, the last one is decidedly original but very pretty, the others are equally pleasing.

The North British Review for February has been laid on our table. Its contents are:—"Stanhope's History"—"Walpole and Voltaire," "Naples 1818—58," "Scottish Natural Science"—"Logic of Induction—Mill," "Arnold and His School," "Religious Controversy," "Controversy," "Poetry"—"The Spasmodists," and "Recent Publications."

This is an unusually interesting number of the N. B. R., and it will no doubt be followed by many others.

W. H. Moore is a man of great ability and energy, and has derived much credit and influence from his services.

INQUIRY VS. BRITAIN. — What do we care? One poor monomaniac has convulsed this State to its centre, and has made the Supreme Court to hang as it were upon a precipice over some yawning chasm. Now we are cooled off, and see "the self" how cheap we feel! I am ashamed of it, — all of us ought to be.

THE OPERATIONS AT CANTON. — The capture of Canton is another signal demonstration of the superiority of European energy and prowess over Oriental pretension. The eve with which a city (in many respects the most important in the Empire) was taken by the allies, is an instructive commentary upon the vainglorious acts assumed, anterior to the assault, by that singular specimen of Celestial stoicism, Commissioner Yeh. The outside barbarians, after a very moderate conflict, are now "victors," and it is quite probable that the first news of the surrender of the city received by the Court at Pekin, was in the shape of a despatch from a Governor inaugurated under British authority in place of Yeh who, at last dates, was a snug prisoner in a jail English man-of-war.

In his dispatches to Lord Elgin, just before the commencement of hostilities, Yeh, it will be remembered, improved the occasion to inform his Excellency that he knew nothing about his ally, the French, and but very little about the Americans. In view of this deplorable state of ignorance on the part of the distinguished Chinese, it could not be a bad idea to send him to France first, to get a little acquainted there and the forward him to the United States to study the institutions."

The French, by the way, appear to have taken a very subordinate part in the attack on the city; but, no doubt, they will greatly share whatever advantages may be obtained by their ally. Meanwhile, we hear nothing particular of Judge Reed or the American squadron. Both appear to be awaiting the signature of Mr. Wilson's Member, — waiting to see what will "turn up." — *N. E. Express.*

NEW YORK TERRITORIES. — The several districts of New York State have just been holding their local elections; and, as usual, some of the Democratic politicians have been making a flourish by telegraph.

The Post disputes the record that the Democratic Convention refused to pass resolutions endorsing the President. This is a mere play upon words. Resolutions endorsing the President were urged on the ground that their passage would strengthen the President. They were not passed. All this, we think, will not be disputed.

They were referred to a committee, and why? Had not the members of the convention made up their minds? The President had stated his administration on a great question; many of his friends who had been most active in his election had taken ground against him; the Democratic party was divided on the question; it was the question of the day; and a Democratic convention signed it; declined, or omitted — *whatever other word may suit the Post* so that it only means *do I do* — to pass any resolutions on the subject, although resolutions had been proposed and passed, and urged with much force.

Dr. Duroc's Golden Periodical Pills for

Females. Perfectly harmless, yet wonderful

and powerfully efficacious in correcting

regulating, and removing all obstruction

from whatever cause.

All medical men know, as well as many others,

that no female can enjoy good health, unless she is regular, and a sedulous observer;

when either cause, whether from exposure, cold,

any other cause, the general health begins

immediately to decline, and the want of such

a remedy has been the cause of so many com-

plaints among young females. Headache,

Pain in the Side, Palpitation of the Heart,

Loathing of Food, and Disturbed Sleep, do

most always arise from the interruption of us-

ture; and whenever that is the case, the Pills

will invariably remedy all these evils; and may

always be used successfully as a preventive.
